## News

### Do You Own A Portable Layout?

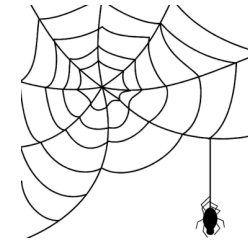

Does any member have a portable garden scale (16mm, G scale, gauge 1, gauge 0 or other) layout that could be used at the next WWSME annual show, the 'Wiltshire Model Steam Gala', to be held on Saturday 14 September 2019? We are looking for layouts to compliment those already booked.

If so, please contact Barry Statham.

### It's On The Web....

Take a look at club website for all things WWSME.

The full official calendar of events can be found along with the members area which is a password protected area of the website full of information for us to use.

The members area contains the committee information and latest committee meeting minutes which can also be found on the notice board in the clubhouse.

In the members area are the safe operating procedures for the raised 3½" and 5" track which are there to make sure we all stay safe on the club site.

There is an extensive library containing both books and DVD's available at the clubhouse with the full library catalogue available in the members area of the website.

A for sale area in the members area is the place to buy your next project or sell an old project.

If it's been a while since you looked at the website, take a look – it is regularly updated and a great resource for us all.
